HISTORY OF ALCOHOL.

Alcohol was invented 950 years ago,by the son of a strange woman, Hager in Arabia Ladies used it with a powder to paint themselves that they might appear more beauti ful, and this powder was called alcohol. During the reign of William and Mary, on act was passed encouraging the manufacture of spirits. Soon after intemperance and profligacy prevailed such an extent that the retailers in intoxicating drinks put up signs to public places informing the people that they might get drunk on a ponny, and have some atraw to get sober on.

In the sixteenth century, distilled rpirits spread over the continent of Europe. About this time it was introduced into the colonies. to the United States were then called. The first notice we have of its use in public life. was among the laberers in the Hungarian mines, in the fifteenth century. In 1581. it was used by the English soldiers as a cordial. The alcohol in Europe was made from grapes, and sold in luty and Spain as a medicine. The Genuese sherwards mad It from grain, and sold it as a medicine in bottles, under the name of the water of life Until the sixteenth it was only kept by aporthecaries as a medicine. During the reign of Henry VII., brandy was unknown to Ireland, and soon its alarming effects in dueed the government to pass a law prohibit-

ing its manufac ure. About 120 years ago it was used as a bey erage, especially among the soldiers in the English colquies in North America, under she preposterous notion that it prevented sickness and made men fearless on the field of buttle. SHAKER SARSAPARILLA. HE Great Spring and Summer Medicine .a young lady residing in our city.

CINCINNATI, Peb 7th, 1851.
This is to certify that my sixter, Mary C. Belman, was attacked with a disease in her hip, more than three years ago, which rendered her so utterly helpless that she was compelled to keep her bed. All hopes of her recovery were despaired of. Some of the most eminent physicians of Covington and Cin-suffering from Ulcerated Limbs, and whose case cinnati attended her, all of whom declared her has been pronounced hopeless by three of our best case a hopeless one. Passing by Dr. Howe's de-physicians. I took her into my family, and have pot, an idea surgested itself, that to try one bottle of his Shaker Sarsaparilla could do no hann. Accordingly I purchased one bottle, and before its contents were entirely used she received benefit. I was induced to try another, and another; before the last was used she had nearly recovered. Now she has no pain, can walk, and has the entire use of her limit. To Howe's Shaker Sarsaparilla we attribute this effective cure. It is but a few months since she commenced taking it.

DR. GUYSOTT'S IMPROVED EXTRACT OF VELLOW DOCK &
SARSAPARILLA, put up in the largest
sized bottles, contains more of the pure Honduras

Pleasant Ridge, Hamilton Co., O., 2 Sarsaparilla than any other preparation extant, which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Satsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other of the Sarsaparilla compounds. The invalids should beware of poisons. Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic and many other mineral and metallic poisons, en ter into, and form the active basis of most of the Sarsaparillas and Panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances; as any one can ascertain by applying the ne-

cessary tests. These poisons may occasionally remove the dis ease, but they so vitiate the blood and completely impregnate the whole system with their banefu effects, that the first cold, or the first attack of dis ease, prostrates the patient's strength, and subim or her to the most excrutiating torture and renders another cure almost impossible and hopelest. Let all poisonous Sarsaparilla preparations alone and use Guysott's Improved Extract of Sarsaparilla, which is thoroughly efficacious, per-fectly harmless, and purely vegetable. All kinds of disease yield to its genial influence.

The following is an extract of a letter dated March 27, 1850, from E. B. Perkins, M. D., a highly respectable physician of Marietta, Ohio: Joun PARK-Dear Sir: I have under my care young woman who, for sixteen years, has been used Guysott's Yellow Dock and Sarsaparilla freey, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is in better general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used crutches. I will report the case in due time. Very respectfully, E. I was afflicted with nearly all the worst features of the disease; I had distressing cough, and expectorated a great deal of blood, hectic feacr, severe pains in the Side and chest, cold chills, alternating with flushes of heat

and copious night sweats. I was under the care of a skilled physician from the time I was taken sick until about six weeks since, being then about helpless, and my friends considering my case hopeless, of at least beyond the reach of my physician's skill, advised the use of Wistar's Balsam of Wild Cherry.— Without my knowledge, my father procured it and commenced using it. I was able to be out and oversee my business and labor, which I still continue to do. I have taken four bottles of the me cine, and now consider myself well. when all hope of railed had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that hane of civilization, DYSPEPSIA, or any other Chronic or Nerveus Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temperacy reordinary cases, stimulants are lawn, which, by last's cases of the nervee and muscles of the stomach, afford temperary retief, but which leave the patient in a lower state, and with hijured faculties, after the action thus excited has cessed. Nowcompare this with the effect resulting from the application of
the GALVANIC BELT sake a Dyspeptic sufferer, even inthe worse aymptoms of un attack, and simply the the Beld
around the body, using the Magnetic Finish as directed. In
a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the argainty, and thance back
again to the positive, thus keeping up a continuous Calvanic
circulation throughout the system. Thus the most severe
cases of DYSPETSIA are PERMANENTLY CURED. A

"Truth is stranger than Fiction." CURE OF Rheumatism, Bronchitis and Dyspensi REV. DR. LANDIS, A CLERGYMAN

DR. A. H. CHRISTIE—DERF Sir I. You wish to know of mawhat has been the result in my come case, of the application of THE GALVANIC SELT AND NECKLAGE. My reply is a follows: what has been the result in myssels case, of the application of THE GALVANIC BELT AND NECKLACE. My reply to as follows:

For about seemly user I had been suffering from Dysapsis. Every year the symptoms become worse nor could contain permenent relief from any course of medical treatment whatever. About fourtees years since, in consequence of frequent exposures to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rhoomstian, which for year after year, caused ms indescribable anguish. Ferther: in the winter of '45 and '46, is consequence of preaching a great deal in my own and varience other churches in this region, I was stated by the Bronchits, which soon became so severe as to require an immediate suspension of my pastoral labous. My nervest syrtem was new theroughly prestrated and as my Bronchitis became worse, as also did my Dyspepsis and Rhoumanic affection—thus eviscing that these disorders were connected with each other Carough the medium of the Nervous system. In the whole phas macoposis there are med to be no remedial agent which could reach and recuperate my Nervous Bystem; every hing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventional (though with no very canguine hopes of their efficiency, I determined to try the affect of the application of the QALVANIC BELLT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To my cannot appear and a surface only the accuse My Pasteral Labous; new marx I since omitted a single survice on account of your labour of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuroligic affection. They have tried them, with marked the Recentally years.

I am dear sir, very respectfully years.
